

JOB OPENING

Architect / CAD Operator

DESCRIPTION

Architectural Concepts has a job opening for a Graduate Architect (preferred) or CAD Operator with an Architectural or Building Technology degree and at least 2-8 years of architectural office experience. Applicants must be self-motivated, have good communication skills, and be proficient in AutoCAD and Microsoft Office. Applicants must also be able to produce and coordinate a complete set of construction documents, do on-site surveys and inspections, and coordinate with contractors. This position offers great potential for growth within the company, has opportunity for bonuses, and includes full benefits.

Job Type: Full-time or contract

Salary: Competitive

Required education:

Bachelor's or Associates degree in the architectural or building technology fields

Required experience:

Current AutoCAD: minimum 2 years

Architectural office: minimum 2 years

Required language: English
